## PROFILE

I am a dedicated and adaptable professional in my 2nd year of B.Tech in Computer Science Engineering at Engineering College Bikaner, with a solid foundation in full-stack web development, open-source contributions.

Recently, I secured third place in the Creators Hackathon at my college, showcasing my problem-solving skills and ability to innovate in a competitive setting.

My participation in the GirlScript Summer of Code 2024 allowed me to contribute meaningfully to open-source projects, enhancing my coding skills and earning recognitions like the Trailblazer, Adventurer, and Explorer badges.

This journey reflects my commitment to continuous growth across multiple tech domains, and I am eager to leverage my diverse skill set to contribute to impactful projects across software landscapes.
